PERSONAS

Elena
Dietition

Trisha
Nutrition
Deficiency Patient

Re-Define Me

John
Gym Trainer

Gigi Hadid
Model

Profile

Elena graduated with her doctorate from the University of Bridgeport School of Chiropractic. She has spent over 5 years in the healthcare industry and has a patients for understanding human biomechanics and she is registered with the Commission of Dietetics Registration (CDR).She is mother of 2 kids and her husband is Software Engineer.

Interests

- Long rides
- Cooking
- Athletics
- Listening to Music

Frustration

Elena must deal with lot of vitamin and nutrition deficiency patients everyday. She wants to help patients who need supplements and vitamins in their daily routine, but she can't help everyone at the same time in case of emergency.

Goals: Her goal is to collaborate with the top EHR system handling companies to update the EHR system and need to hire few faculty who helps her in maintaining the data of clients.

She will help patients who needs supplements by using our web application "**Re-Define Me**". She will be communicating with her clients at her feasibility. She can plan meetings with the patients even from home. So that she can closely observe the patient's requirements.

Demographics:

- **Name:** Elena
- **Age:** 32 years
- **Profession:** Dietitian
- **Location:** New York
- **Salary :** \$120,000/annum.

Profile

Trisha is HR / Managing Director at Apple Inc in California. She handles the recruiting team and conducts all the interviews for the new candidates. There will be lot of pressure in the office, she is newly married and shifted to California. She is suffering from Calcium Deficiency, has signs of B12 and suffering from dry skin, severe hair fall. She needs medication for malnutrition including supplementation, proper diet, lifestyle.

Interests

- Reading Books
- Miniatures
- Singing

Frustration

It is difficult for Trisha to handle her job and care about her health, lifestyle due to hectic schedule and interview appointments. She couldn't be able to make for the appointments with her doctor due to her tight schedule

Goals:

As calcium deficiency can reduce bone strength and lead to osteoporosis, which is characterized by fragile bones Trisha wants to take the supplements with food containing vitamins in order to maintain balance at her feasibility and can communicate with her personal nutritionist frequently.

Demographics

- **Name:** Trisha
- **Age:** 28 years.
- **Profession:** HR / Managing Director
- **Salary:** 95,000 per Annum.
- **Location:** California.

Profile

Alex is the most handsome and best rated trainer in the most famous gyms in New York. He is the head coach of Mighty transformation program, and his passion is to help people change their lives in the simplest and most realistic way. He believes everyone deserves the right for good health and to be happy with themselves inside and out. He loves to help people to reach their transformation goals with proper diet.

Interests

- Weights lifting
- Dancing
- Cycling
- Volunteering
- Hiking

Frustrations

As he is the best coach in the gym, people want to get the information about the proper diet and the routine workouts to follow. Lot of people surround him to ask him about the diet when he is training his personal trainers.

Goals

Alex is mindful of what his clients eat just as crucial as their routine, in order to bring in healthy life and mind. He wants to become established fitness professional. He helps his client to reach their individual goals with unique diet plans. Re-define can help him to get touch with his clients virtually and can help them with workouts and diet plans through online classes.

Demographics

- **Name:** Alex.
- **Age:** 29.
- **Profession:** Gym Trainer
- **Fitness Level/Rating:** Best
- **Salary:** 55,000 per annum

Profile

Jelena Noura "Gigi" Hadid is an American model and television personality. Hadid's modeling career began when she was 2 years old. She started modeling for Baby Guess before stopping to concentrate on school. She eventually returned to modeling in 2011. She resumed working with Marciano and was named the face of a Guess campaign in 2012. She has shot three campaigns with Guess as an adult. She signed to IMG Models in 2013 and made her New York Fashion Week debut the following year. She has appeared in numerous high fashion campaigns and editorials, and is a spokesmodel for **Maybelline**

She dated Zayan Malik in 2015 and she confirmed that she and Malik were expecting their first child soon, during an interview on The Tonight Show Starring Jimmy Fallon. Their daughter was born in September 2020

Interests

- Gardening
- Yoga
- Spending time with loved ones.

Frustrations

It is difficult for her to deal with criticism, competitors and as a top model she needs to maintain her body and diet. But she can't control her cravings.

Goals: Gigi says "If something's inspiring me, I'll push myself harder to get there". Being a model, and a mom Gigi decided to maintain proper health along with a healthy and nutrition diet. She walks a lot. She does Yoga. With lifting weights, she runs around for an hour in the park. She does everything said by her trainer to keep her body fit and healthy.

Demographics

Name: Jelena Noura Hadid.

Age: 27.

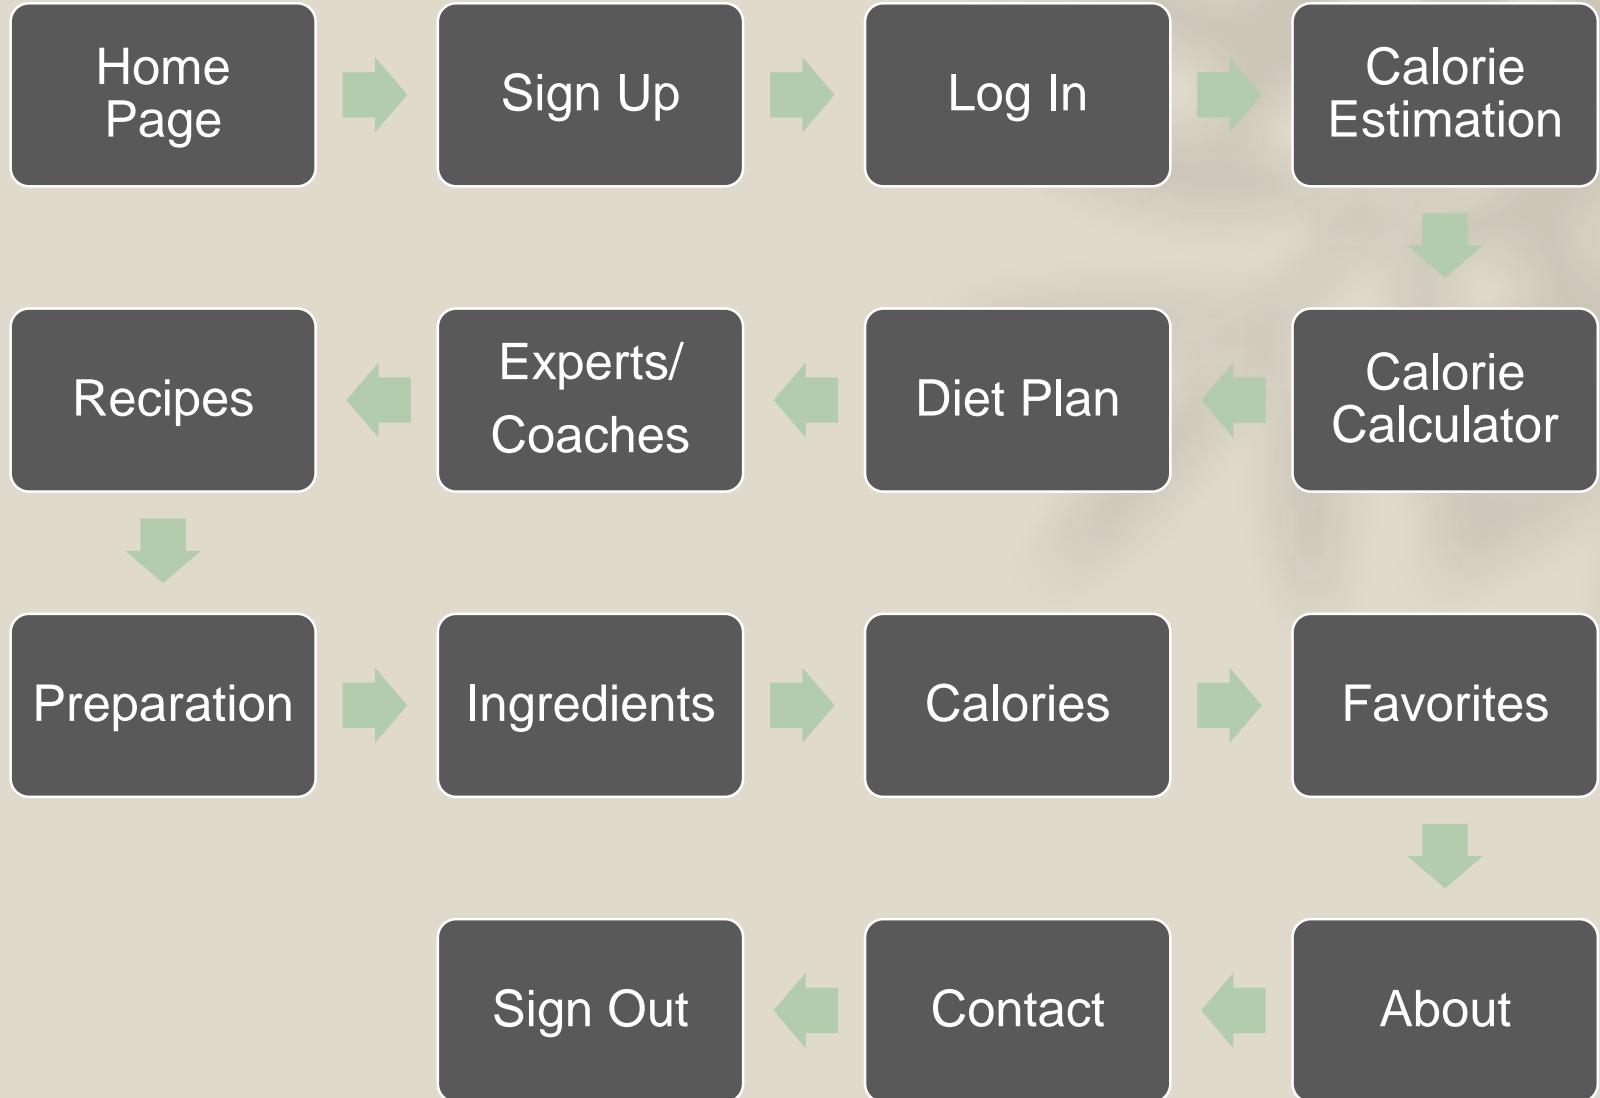

Profession: Female Runway Model

Net Worth: 29 Million.

Location: Los Angeles

Followers: 77.1 Million

ALGORITHM

Calorie counting is a process where it uses multiple algorithm such as object detection and is linked to a database where the calorie information of each food and ingredients is stored in it. When a user take pictures of their meal, it will detect the food and automatically count the total calories that is about to be consumed for the users. This is applied in many healthy diet applications to help users to keep track of the numbers of calories consumed in the food so that one will not eat too much.

Since healthy diet is popularly concerned in this modern world. These application able to help the individuals to maintain and improve their overall health by providing relevance information such as calories, nutritional facts as well as keeping track of their food intake. One biggest flaws that these applications have made are that they do not have object counting algorithm. This will affect the counting process and will not be able to provide an accurate result during the process. The information are too generalized where the calories are counted in a fixed portion or the user need to manually select their quantities of it, but most of them would not prefer to gone through these hassle. The aim for this project is to further enhance these applications in the form of accuracy in counting food calories by using object detection and object counting so that each of every ingredients and food to be consumed by the user is determined and provide a precise result for them.

SPRINT 7 RECAP

Adding the
doctors' details

Added new ids for
Sign/Login Page

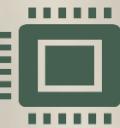

Added features for
the Application

Worked on new
user stories

Changed the UI
Background

Design backend &
working on Database

Added more
recipes to the list

Adding the
coaches' details

Save the recipes
to your favorites

Sprint 7 Vs Sprint 8

▪ Sprint 7

- Worked on new features to the application.
- Added new story points and specified issues and tasks.
- Recipes and recommendation are added according based on maintenance calories.
- Adding the coaches and doctors' lists.
- Changed the background for user interface.

▪ Sprint 8

- Added new story points and specified issues and tasks.
- Worked on the Deployment Manual.
- Updated the tech paper.
- Save the recipes to your favorites.
- Added membership plan to the application.
- Added all the files to the repository.

Sprint 2 Backlog

Key	issue type	Name	story point Estimate
SAT-1	Story	As a new user, I want to register using email,So that I can login to the application	3
SAT-11	Story	As a new user,I want to login to the application, but I enter wrong credentials, So that I get alerted using a popup message that my credentials are invalid	3
SAT-4	Story	As a new user I want to enter inputs likeage,height ,weight ,activity So that I get recommendations based on my information.	5

Sprint 3 Backlog

Key	Issue type	Name	Story point estimate
SAT-5	Story	As a new user, I want to navigate to all the services in the application, So that I can get all the services of the application.	5
SAT-9	Story	As a new user ,I want to reset my password So that I can Login again.	3
SAT-8	Story	As a new user ,I want to edit my personal Information, So that I can get recommendations based on changed information	5

Sprint 4 Backlog

Key	Issue type	Name	Story point estimate
SAT-9	Story	As a new user I want to click on the services so that I get to know what is the service capable of.	5
SAT-06	Story	As a new user , I want to navigate using a search on the web page, So that I can navigate quickly through features.	3
SAT-14	Story	As a User canI want to sign-out from the application by clicking log-out, So that I can log off from the application.	3

Sprint 5 Backlog

Key	Issue type	Name	Story point estimate
SAT-11	Story	As a new user I want to Navigate through home page,features about and find contact information So that I can get fammiler with the application	5
SAT-12	Story	As a New user I want to scroll through the website and see all the features in it, So that I get to know information about the website	3
SAT-13	Story	As a user,I want to share my information by writing name,goals and contact info and submit the information, So that the information gets stored	3

Sprint 6 Backlog

Key	Issue Type	Name	Story Point Estimate
SAT-17	Story	As a Customer,I want to enter my details So that I can find maintainance calories	5
SAT-18	Story	As a Customer,I want to get diet recommendation based on my maintainance calories So that I can reach my fitness goals	8
SAT-19	Story	As a Customer, I want to search the catalogue for recepies So that I can choose desired recepie based on maintainance calories.	5
SAT-21	Story	As a Customer I want to select a nutritionist So that I can proceed to make an appointment with him.	3

Sprint 7 Backlog

Key	Issue Type	Name	Status	Story point Estimate
SAT-20	Story	As a Customer, I want to view the list of all the available professionals So that I can have a list of them to choose when I need one.	To-Do	5
SAT-22	Story	As a Customer I want to give feedback for the professionals that I got contacted for the service So that the other users get overview of the service.	To-Do	5
SAT-23	Story	As a customer I want to give rating and feedback for the application So that the review can be pinned to testimonials	To-Do	3
SAT-24	Story	As a customer I want to email the Customer service So that my issue gets resolved	To-Do	3

Sprint 8 Backlog

Key	Issue Type	Name	Story point	Priority Points
SAT-24	Story	As a customer, I want to email the Customer service, So that my issue gets resolved.	3	1
SAT-26	Task	Complete the project deployment	8	2

Product Backlog

Issue Type	Key	Name	Story points	Status
Story	SAT-11	As a new user I want to Navigate through home page, features and about and find contact information So that I get fammiler with the application	5	Done
Story	SAT-12	As a user I should be able to share my information by writing name, goals and contact and submit the information So the information gets stored.	3	Done
Story	SAT-13	As a New user I should be able to scroll through the website and see all the features in it So that I can get and overview of what the application consists of.	3	Done
Task	SAT-44	Research on Application algorithm Architecture	5	Done
Story	SAT- 17	As a Customer I want to enter my details like height, weight,activity So that I can find maintainance calories	8	Done
Story	SAT - 18	As a Customer I want to get diet recommendation based on my maintainance calories, So that I can reach my fitness goals.	8	Done
Story	SAT- 19	As a Customer I want to search the catalogue for recepies So that I can choose desired recepie based on maintainance calories	5	Done
Story	SAT-21	As a Customer, I want to select a nutritionist So that I can proceed to make an appointment with him.	3	Done

TEAM VELOCITY CHART

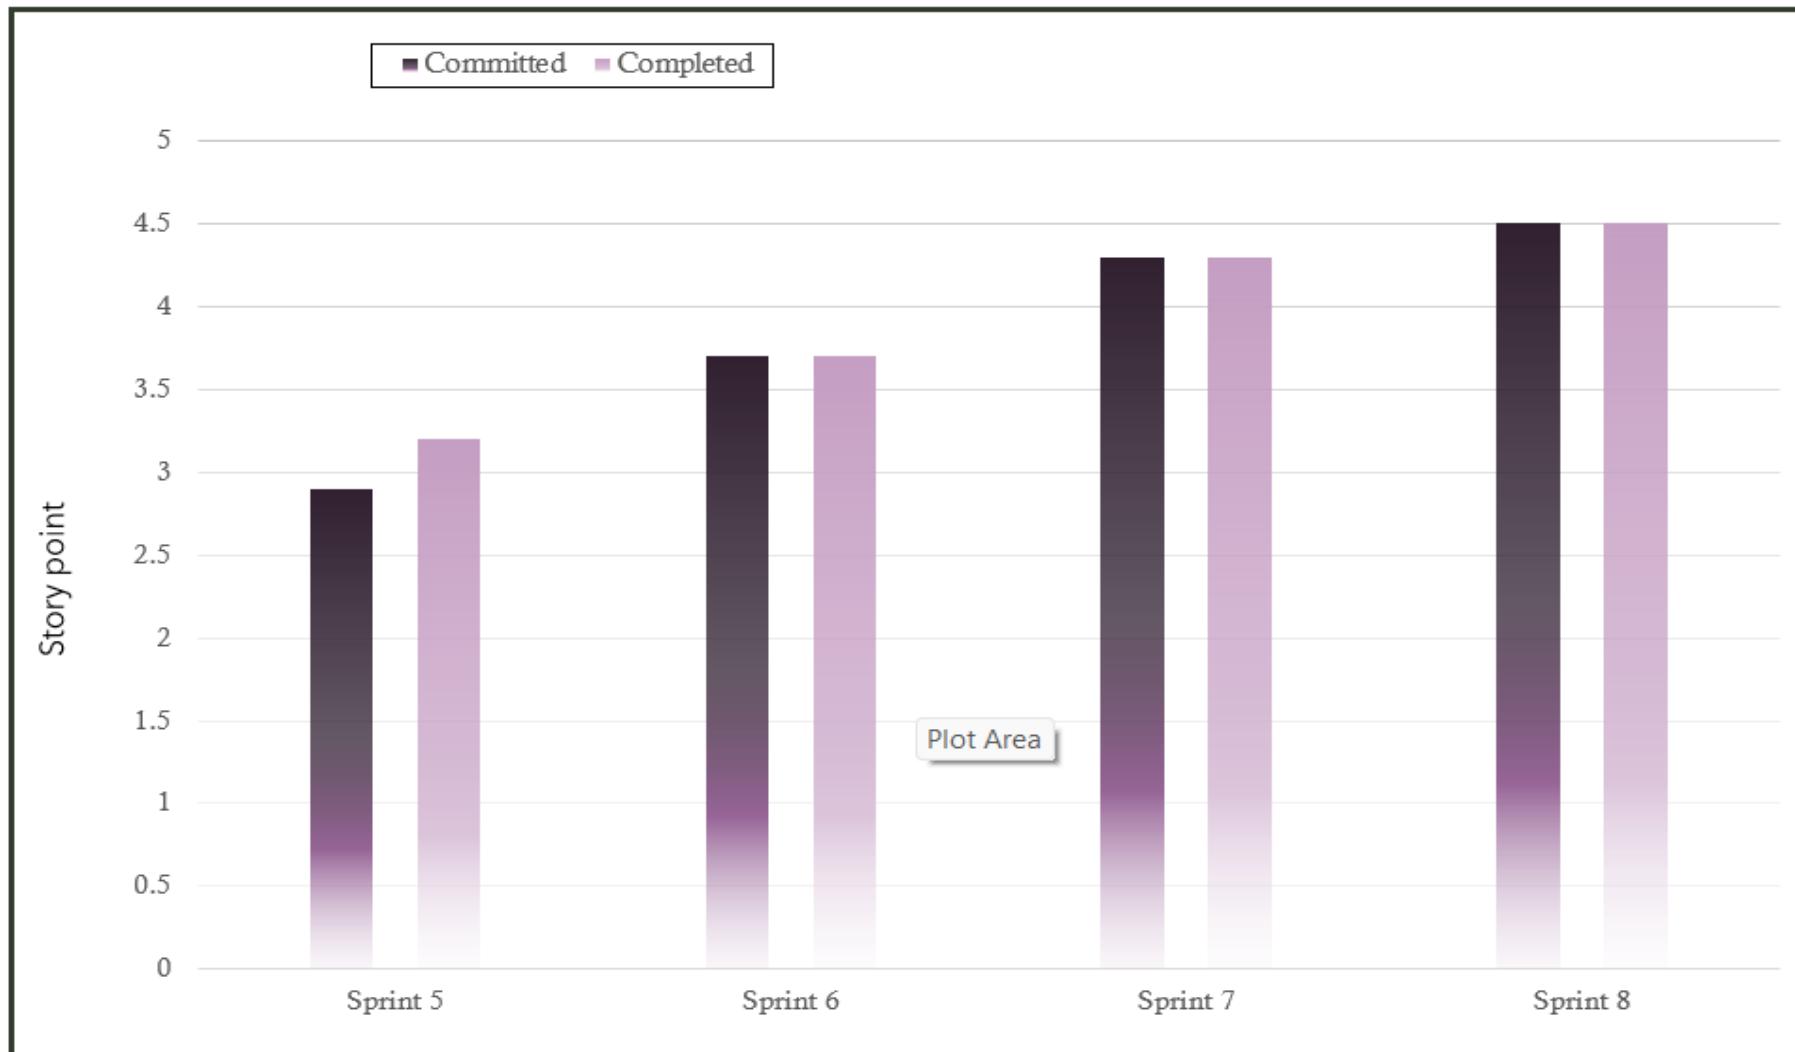

TEAMS HISTORICAL VELOCITY (AVERAGE)

BURN DOWN CHART

COMPLETED/COMMITTED RATIO

Retrospective

WHAT WENT WELL?

Most of the meetings went according to the scheduled manner .

We completed the sprint 7 deliverables on time.

Teammates supported and helped each other to submit deliverables on time

WHAT NEEDS IMPROVEMENT?

Require more time to work on the new features that are added.

Couldn't be able to conduct required meetings as the teammate were busy with their own schedules

Avoid delaying the work and depending on the other teammates to complete their tasks.

Need to improve time-management and spend time to work on the deliverable.

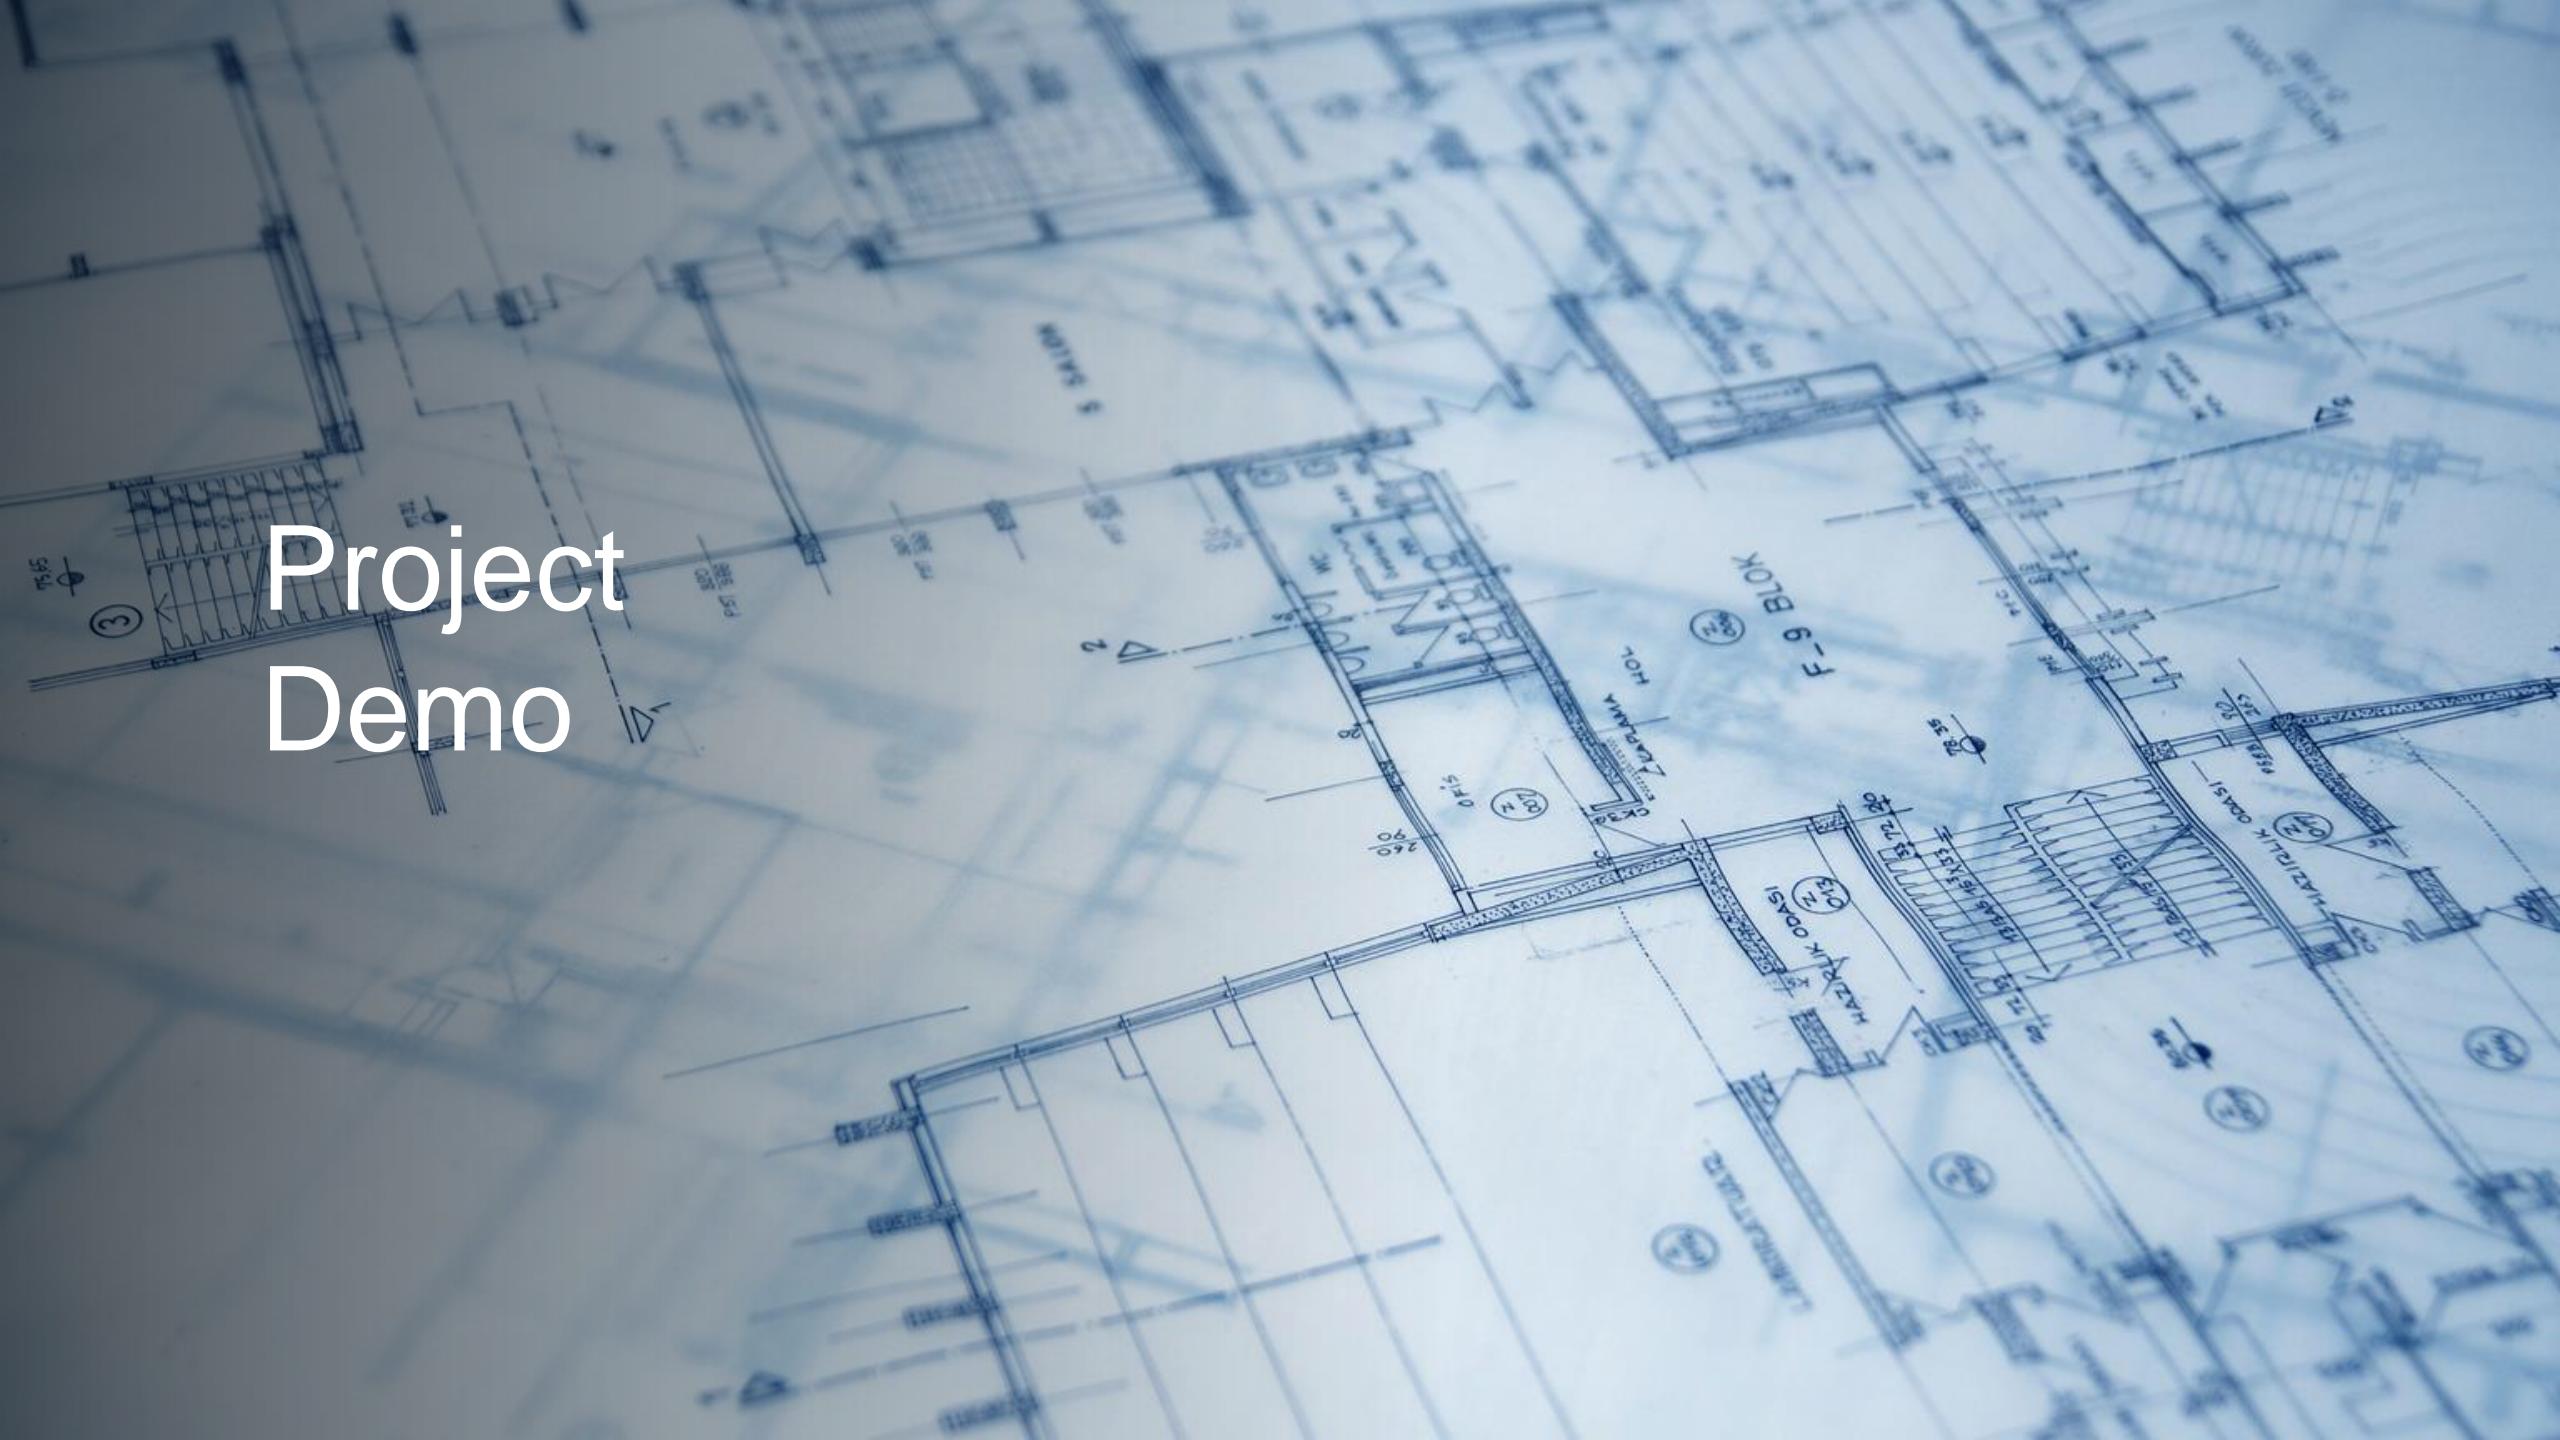

Discuss the new updates about the project and members need to take initiative and work on their part for sprint submission.

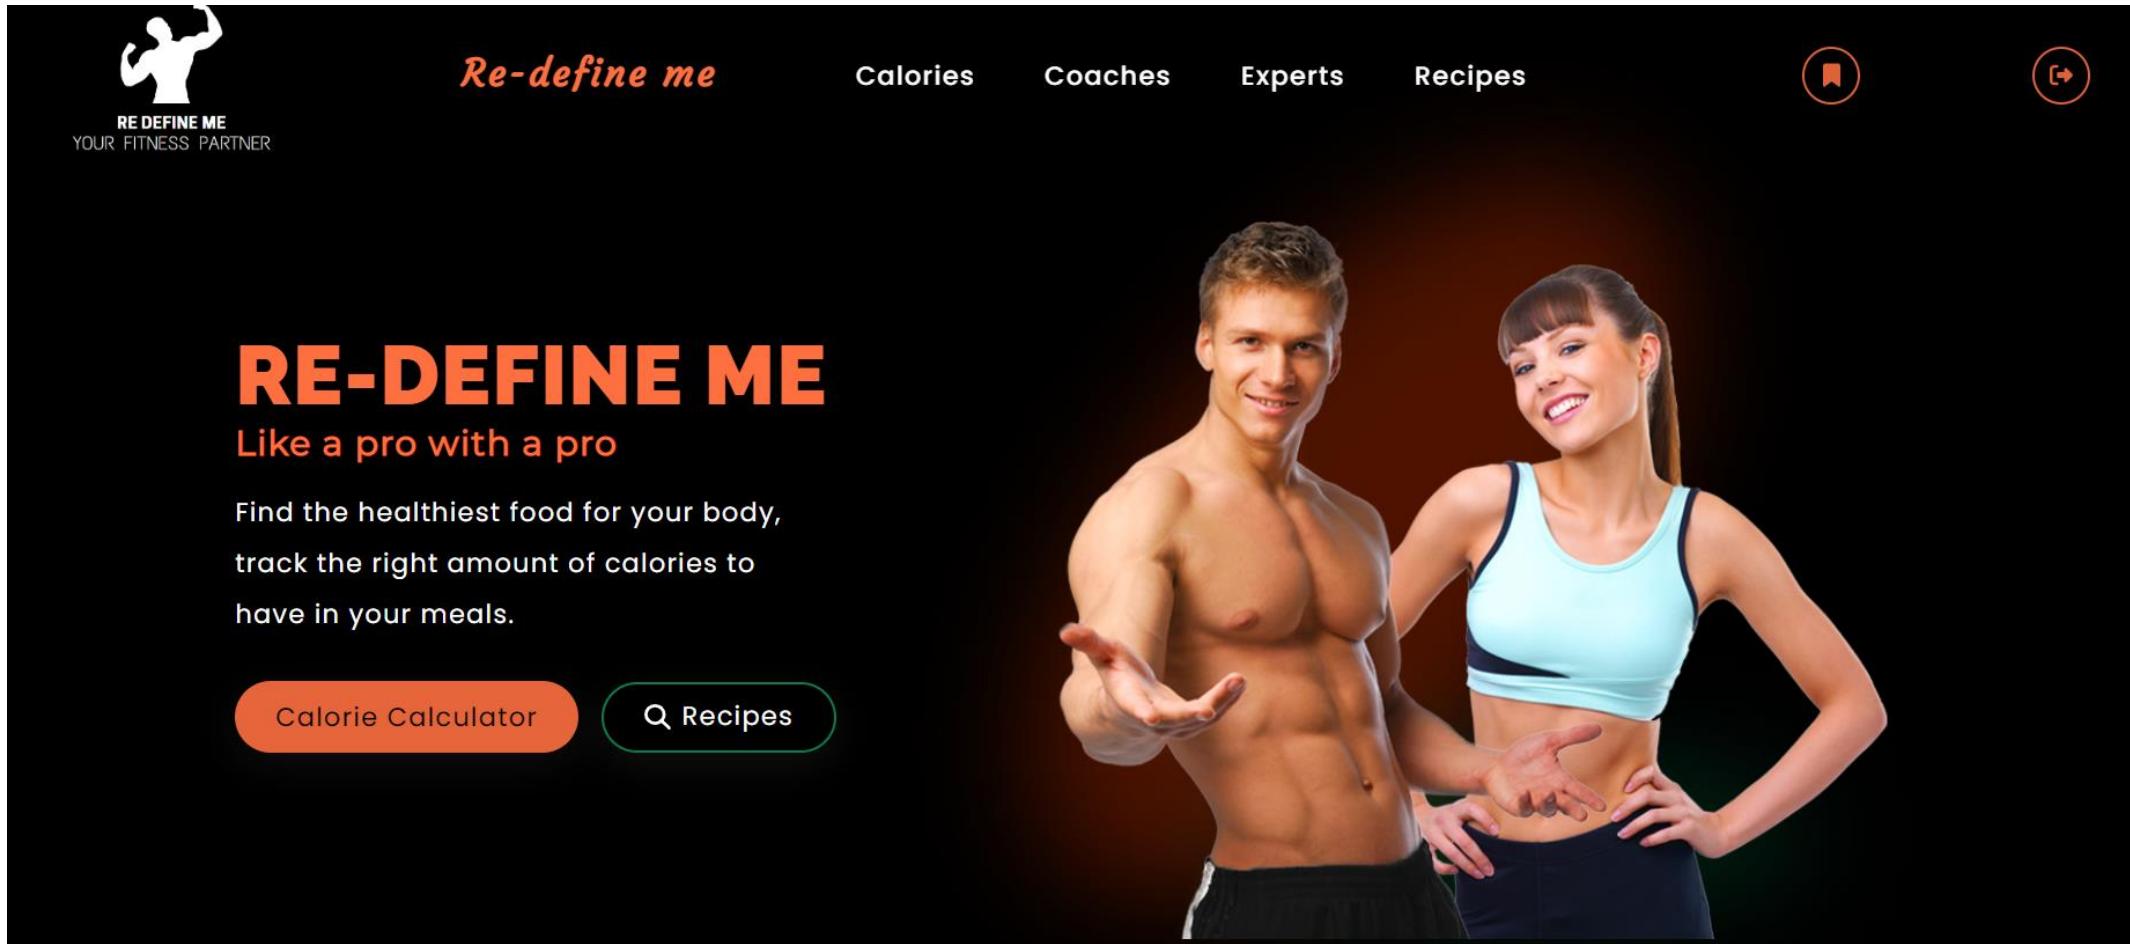

Team should focus on timely integration and deployment.

NEXT STEPS

Project Demo

Application Screenshots

The screenshot shows the homepage of the "Re-define me" fitness application. At the top left is the logo featuring a white silhouette of a person flexing their arm, with the text "RE DEFINE ME" and "YOUR FITNESS PARTNER" below it. To the right of the logo is the slogan "Re-define me" in red. The top navigation bar includes links for "Calories", "Coaches", "Experts", and "Recipes", along with two circular icons for sharing or bookmarking. The main visual features a shirtless man and a woman in athletic wear smiling; the man is pointing towards the camera while the woman has her hands on her hips. Below them is a large orange call-to-action button containing the text "Calorie Calculator" and "Recipes". To the left of the button, there's descriptive text: "Like a pro with a pro" and "Find the healthiest food for your body, track the right amount of calories to have in your meals."

RE-DEFINE ME
